Raw Data:

Dataset 1: Census Data (/raw_data/census_data.csv)

Variable Name	Description	Variable Type	Value Labels (Categorical Variables)
name	Name of the Core-based Statistical Area (CBSA)	String	
cbsa_code	5-digit code of the Core-based Statistical Area (CBSA)	Numeric	
median_income	Median Household Income of the CBSA (in 2024 inflation-adjusted U.S. Dollars)	Numeric	
total_population	Total population of the CBSA	Numeric	
total_population_25+	Total population of the CBSA 25 years old or above	Numeric	
hs_diploma	Total population of the CBSA 25 years old or above that has attained a High School Diploma	Numeric	
ged	Total population of the CBSA 25 years old or above that has attained a GED or alternative credential	Numeric	
associates	Total population of the CBSA 25 years old or above that has attained an Associate's Degree	Numeric	
bachelors	Total population of the CBSA 25 years old or above that has attained a Bachelor's Degree	Numeric	
masters	Total population of the CBSA 25 years old or above that has attained a Master's Degree	Numeric	
professional	Total population of the CBSA 25 years old or above that has attained a Professional School Degree	Numeric	
doctorate	Total population of the CBSA 25 years old or above that has attained a Doctorate Degree	Numeric	

Dataset 2: Public School Data (/raw_data/public_schools.csv)

Variable Name	**Description**	**Variable Type**	**Value Labels (Categorical Variables)**
NCESSCH	Unique NCES school identifier	Numeric	
LEAID	7-digit LEA identifier	Numeric	
NAME	Name of school or LEA	String	
OPSTFIPS	FIPS state code for reporting state	Numeric	
STREET	Reported location address for school	String	
CITY	Reported city for school	String	
STATE	Reported state for school	String	
ZIP	Reported ZIP code for school	String	
STFIP	2-digit FIPS code where school is based	Numeric	
CNTY	5-digit county code where school is based	Numeric	
NMCNTY	Name of the county	String	
LOCALE	Locale code that indicates what type of area school is in	Numeric	
LAT	Latitude coordinate	Double	
LON	Longitude coordinate	Double	
CBSA	5-digit CBSA code	Numeric	
NMCBSA	Name of CBSA	String	
CBSATYPE	Type of CBSA	Categorical	1: Metropolitan 2: Micropolitan 0: Not in a CBSA
CSA	3-digit Combined Statistical Area (CSA) code	Numeric	
NMCSA	Name of CSA	String	
CD	Congressional district code	Numeric	
SLDL	State legislative district code for the lower house	Numeric	
SLDU	State legislative district code for the upper house	Numeric	
SCHOOLYEAR	Academic year	String	

Dataset 3: Postsecondary School Data (/raw_data/postsecondary_schools.csv)

Variable Name	**Description**	**Variable Type**	**Value Labels (Categorical Variables)**
UNITID	Unique NCES school identifier	Numeric	
NAME	Name of school or LEA	String	
STREET	Reported location address for school	String	
CITY	Reported city for school	String	
STATE	Reported state for school	String	
ZIP	Reported ZIP code for school	String	

STFIP	2-digit FIPS code where school is based	Numeric	
CNTY	5-digit county code where school is based	Numeric	
NMCNTY	Name of the county	String	
LOCALE	Locale code that indicates what type of area school is in	Numeric	
LAT	Latitude coordinate	Double	
LON	Longitude coordinate	Double	
CBSA	5-digit CBSA code	Numeric	
NMCBSA	Name of CBSA	String	
CBSATYPE	Type of CBSA	Categorical	1: Metropolitan 2: Micropolitan 0: Not in a CBSA
CSA	3-digit Combined Statistical Area (CSA) code	Numeric	
NMCSA	Name of CSA	String	
CD	Congressional district code	Numeric	
SLDL	State legislative district code for the lower house	Numeric	
SLDU	State legislative district code for the upper house	Numeric	
SCHOOLYEAR	Academic year	String	

Processed (Cleaned) Data:

Dataset 1: Census Data (/processed_data/census_data_cleaned.csv)

Variable Name	**Description**	**Variable Type**	**Value Labels (Categorical Variables)**
name	Name of the Core-based Statistical Area (CBSA)	String	
cbsa_code	5-digit code of the Core-based Statistical Area (CBSA)	Numeric	
median_income	Median Household Income of the CBSA (in 2024 inflation-adjusted U.S. Dollars)	Numeric	
total_population	Total population of the CBSA	Numeric	
total_population_25+	Total population of the CBSA 25 years old or above	Numeric	
hs_diploma	Total population of the CBSA 25 years old or above that has attained a High School Diploma	Numeric	
ged	Total population of the CBSA 25 years old or above that has attained a GED or alternative credential	Numeric	
associates	Total population of the CBSA 25 years old or above that has attained an Associate's Degree	Numeric	

bachelors	Total population of the CBSA 25 years old or above that has attained a Bachelor's Degree	Numeric	
masters	Total population of the CBSA 25 years old or above that has attained a Master's Degree	Numeric	
professional	Total population of the CBSA 25 years old or above that has attained a Professional School Degree	Numeric	
doctorate	Total population of the CBSA 25 years old or above that has attained a Doctorate Degree	Numeric	

Dataset 2: Public School Data (/processed_data/public_schools_cleaned.csv)

Variable Name	**Description**	**Variable Type**	**Value Labels (Categorical Variables)**
ID	Unique NCES school identifier	Numeric	
NAME	Name of school or LEA	String	
STREET	Reported location address for school	String	
CITY	Reported city for school	String	
STATE	Reported state for school	String	
ZIP	Reported ZIP code for school	String	
STFIP	2-digit FIPS code where school is based	Numeric	
CNTY	5-digit county code where school is based	Numeric	
NMCNTY	Name of the county	String	
LOCALE	Locale code that indicates what type of area school is in	Numeric	
LAT	Latitude coordinate	Double	
LON	Longitude coordinate	Double	
CBSA	5-digit CBSA code	Numeric	
NMCBSA	Name of CBSA	String	
CBSATYPE	Type of CBSA	Categorical	1: Metropolitan 2: Micropolitan 0: Not in a CBSA
CD	Congressional district code	Numeric	
SLDL	State legislative district code for the lower house	Numeric	
SLDU	State legislative district code for the upper house	Numeric	

Dataset 3: Postsecondary School Data (/processed_data/postsecondary_schools_cleaned.csv)

Variable Name	**Description**	**Variable Type**	**Value Labels (Categorical Variables)**

ID	Unique NCES school identifier	Numeric	
NAME	Name of school or LEA	String	
STREET	Reported location address for school	String	
CITY	Reported city for school	String	
STATE	Reported state for school	String	
ZIP	Reported ZIP code for school	String	
STFIP	2-digit FIPS code where school is based	Numeric	
CNTY	5-digit county code where school is based	Numeric	
NMCNTY	Name of the county	String	
LOCALE	Locale code that indicates what type of area school is in	Numeric	
LAT	Latitude coordinate	Double	
LON	Longitude coordinate	Double	
CBSA	5-digit CBSA code	Numeric	
NMCBSA	Name of CBSA	String	
CBSATYPE	Type of CBSA	Categorical	1: Metropolitan 2: Micropolitan 0: Not in a CBSA
CD	Congressional district code	Numeric	
SLDL	State legislative district code for the lower house	Numeric	
SLDU	State legislative district code for the upper house	Numeric	

Integrated Data:

Dataset: Integrated Data (/integrated_data/integrated.csv)

Variable Name	**Description**	**Variable Type**	**Value Labels (Categorical Variables)**
name	Name of the Core-based Statistical Area (CBSA)	String	
cbsa_code	5-digit code of the Core-based Statistical Area (CBSA)	Numeric	
median_income	Median Household Income of the CBSA (in 2024 inflation-adjusted U.S. Dollars)	Double	
hs_diploma_per_greater_than_25_pop	The proportion of the population aged 25+ that has a high school diploma	Double	
ged_per_greater_than_25_pop	The proportion of the population aged 25+ that has a GED or alternative credential	Double	
associates_per_greater_than_25_pop	The proportion of the population aged 25+ that has an Associate's Degree	Double	
bachelors_per_greater_than_25_pop	The proportion of the population aged 25+ that has a Bachelor's Degree	Double	

masters_per_greater_than_25_pop	The proportion of the population aged 25+ that has a Master's Degree	Double	
professional_per_greater_than_25_pop	The proportion of the population aged 25+ that has a Professional School Degree	Double	
doctorate_per_greater_than_25_pop	The proportion of the population aged 25+ that has a Doctorate Degree	Double	
Public_Schools_per_total_pop	The number of public schools in a CBSA divided by the total population in that CBSA	Double	
Postsecondary_Schools_per_total_pop	The number of postsecondary schools in a CBSA divided by the total population in that CBSA	Double
